**General Overview**

The Komen Colorado office is located in the Cherry Creek neighborhood of Denver, directly across from the east entrance to the Cherry Creek Mall and the Macy’s main entrance.

**Details and Parking**

Visitor parking is accessed through the alley between Steele and Adams Streets (head east of the building). The alley can be entered from either Ellsworth Ave. or Bayaud Ave. The Visitor Lot is on the south side of the building.

**Getting to the Office**

The Komen Colorado office is located in Suite 100, on the garden level of the building. If parked in the visitor lot, enter the building through the two glass doors on that level, located between the two parking lots. You will then need to go to the front of the building to access the elevators and proceed down one floor (you enter on the 2nd floor).

**If you parked in another location, please enter the building through the same glass doors in the visitor lot through the alley. The main doors on the garden level accessed on Steele Street are locked at all times.**
